ANNUAL INDEX—1960

The annual index of ELECTRONIC INDUSTRIES has been arranged by subjects for easy reference to related topics. The first figure indicates the month in which the article appeared; the second figure indicates the page number.

BROADCAST

Build a "Suitcase" Studio 3-260
Calculating Folded-Unipole Antenna Parameters ..... G. J. Monser 1-96
Put Hi-Fi into Your Broadcast System..B. Gallemore 12-198
Spectrum Analysis of Time Division Stereo ..... B. C. Coffman 9-228
100 KW Transmitter Has New Design Ideas ..... Jo Emmett Jennings 2-186

CHARTS, NOMOGRAPHS, DIRECTORIES

Computer Comparison Chart 6-123
1960 Electronic Industries Directory 6-305
Graphical Semiconductor Symbols 1-109
Graphs for Waveguide Calculations 6-487
Guide to Military Electronic Procurement..... 6-128
Guided Missile Procurement Agencies 6-146
1960 Microwave Electron Device Chart 11-135
New Electronic Standards 6-25
New Receiving & Special Purpose Tubes 6-82
Nomographs Simplify Electron Tube Design, Part I... Robert D. Reichert 1-73
Nomographs Simplify Electron Tube Design, Part II.. Robert D. Reichert 2-80
Roster of Associations 6-99
Semiconductor Symbols 1-101
1960 Summary of Semiconductor Diode Specifications.. 6-181
1960 Summary of Transistor Specifications 6-153
1960 Survey of Guided Missiles 6-140
Synchro Differential Connections 6-95
Synchro Phase-Shifting 6-96
Today's Electronic Engineer—Part II 3-311
1960 Transistor Interchangeability Chart 3-181
1960 Directory of Microwave Manufacturers 11-150
1960 Directory of Western Electronic Manufacturers.. 8-161

CIRCUITS

AC Potentiometer—A New Circuit Component ..... L. Robbins 3-120
The Case for DC Restoration..... R. J. Nissen 1-186
Current Stabilizer Has Wide Dynamic Range..... D. Allenden 5-87
Designing Input Trigger Circuits....Richard Kimes 2-101
Mixer Circuit Has Clean Output....Harold T. McAleer 10-76
Parametric Amplification by Junction Diodes ..... Dr. Earle L. Steele 10-81
RC Filter Networks in Missile Control ..... Ralph Bookway & Robert H. Mayer 4-73
Solid Tantalum Capacitors in Timing Circuits..... George H. Didinger 5-110
Transistor Circuits ..... E. J. Oelbermann & Harold E. Crecraft 9-78
Transistor P-A Amplifier ..... G. F. Montgomery & F. R. Bretemps 1-196

COMMUNICATION SYSTEMS

Consider Interference in Systems Design ..... Rocco F. Ficcki 3-142
Controlling RFI Susceptibility in Receivers ..... H. M. Sacks & J. J. Krstansky 9-92
Detecting Interference to Missiles..... H. Kilberg 4-170
Making Transmitters RFI-Free ..... C. E. Blakely & R. N. Bailey 3-133
New System Defeats Multipath Effect ..... George A. Scheer 5-150
Predicting the Antenna's Role in RFI...Ernest Jacobs 5-96
RFI in Satellite Communications Systems..O. M. Salati 4-92

COMPONENTS—CHASSIS ELEMENTS

Accurate Tracking for Radiotheodolites....Fred Ellis 3-118
The AC Potentiometer—A Circuit Component ..... L. Robbins 3-120
Bio-Medical Measuring in Space....Charles T. Paludan 4-83
Calculate Impedance by Inspection...Leonard Kedson 10-93
Double Coil Relay with One Working Gap ..... John C. Schuessler 5-79
Electronic Hardware 6-117
ELECTRONIC INDUSTRIES Looks At . . . Unconventional Power Converters....Christopher M. Celent 9-101
Guide to RFI Filters 6-124
100 KW Transmitter Has New Design Ideas..... Jo Emmett Jennings 2-186
Printed Diode and Resistor Matrices—Part II ..... Dr. E. J. Schubert 1-88
RC Filter Networks in Missile Control ..... Ralph Hookway & Robert H. Mayer 4-73
Reliability . . . and Printed Circuit Connectors, Part I ..... D. R. Sheriff 9-82
Reliability...and Printed Circuit Connectors, Part II 10-94
Selecting Coaxial Cable 6-259
Selecting and Using Bonded Wire Strain Gages..... Norman C. Parrish 4-88
Selecting & Winding Magnet Wire 6-253
A Solid State Circuit Breaker..... John V. Hanson 7-78
Solid Tantalum Capacitors in Timing Circuits..... George H. Didinger 5-110
Synchro Differential Connections 6-95
Synchro Phase-Shifting 6-96
Testing Time Delay Relays 6-241
Thermistors . . . 10 to 600°K 5-118
"TPR" Recording 2-76
Understanding Mechanical Differentials 6-275

COMPUTERS

Computer Comparison Chart 6-123
Conversion of Binary to Analog Codes ..... S. W. Torode & D. Disinger 9-70
DOPLOC Tracking Determines Orbit.. ..L. G. DeBey 10-78
Finding Radar Pattern Equations with a Computer ... N. D. Diamantides 11-89
General Purpose Digital Computing Systems ..... Arthur H. Freilich 2-70
Introduction to Boolean Algebra 6-106
Mapping Small Magnetic Fields.....Gerald Solomon 9-74
A One Megabit Storage..... Robert R. Schaffer 3-114
Printed Diode and Resistor Matrices—Part I ..... Dr. E. J. Schubert 1-88
Recording from DC to 1MC ..... Nels Johnson & Lal Mirchandani 8-113
Storing with Thin Films.....Philip I. Hershberg 9-89
Switching with Transistors—Part I.....Gerald Lueke 5-114
Switching with Transistors—Part II.....Gerald Lueke 7-82
System Analysis Using Digital Computers ..... William F. Nielsen 8-212

CUES FOR BROADCASTERS

Circuits
Automatic Time Tone .....Freddie J. Hebert 9-236
Automatic Two Cycle Carrier Restorer ..... Norman Bowman 2-210
Inexpensive Time Tone.....Donald M. Wheatley 7-181
Tube Change for Gates Remote Control ..... L. Edwin Rygak 4-176
Maintenance, Testing
Electrical Thermometer .....Siegfried S. Meyers 11-244
Miscellaneous
Eliminating Vibrations .....Jack Vinson 7-219
Preparing Slide Projector While Showing Movie Film. ..... Raymond M. Jurado 1-197
Some "Tips" .....Donald M. Wheatley 9-237
Visual Telephone Signalling.....Morton Morrison 7-180
Recorders, Playback
Modification Simplifies Drive Wheel Changing ..... V. Hoffart 7-180
Recorder Wheel Cleaning ..... Sam Beatty 9-238
45 RPM Adapter .....Lawrence L. Prado, Jr. 5-155
Tape Unit Modification .....Eugene A. Chase 10-200
Remotes
A Modification for Gates RMC 12 ..... George F. Province 10-200
Tone Remote Control Drifting.....L. Edwin Bybak 8-219

EDITORIALS

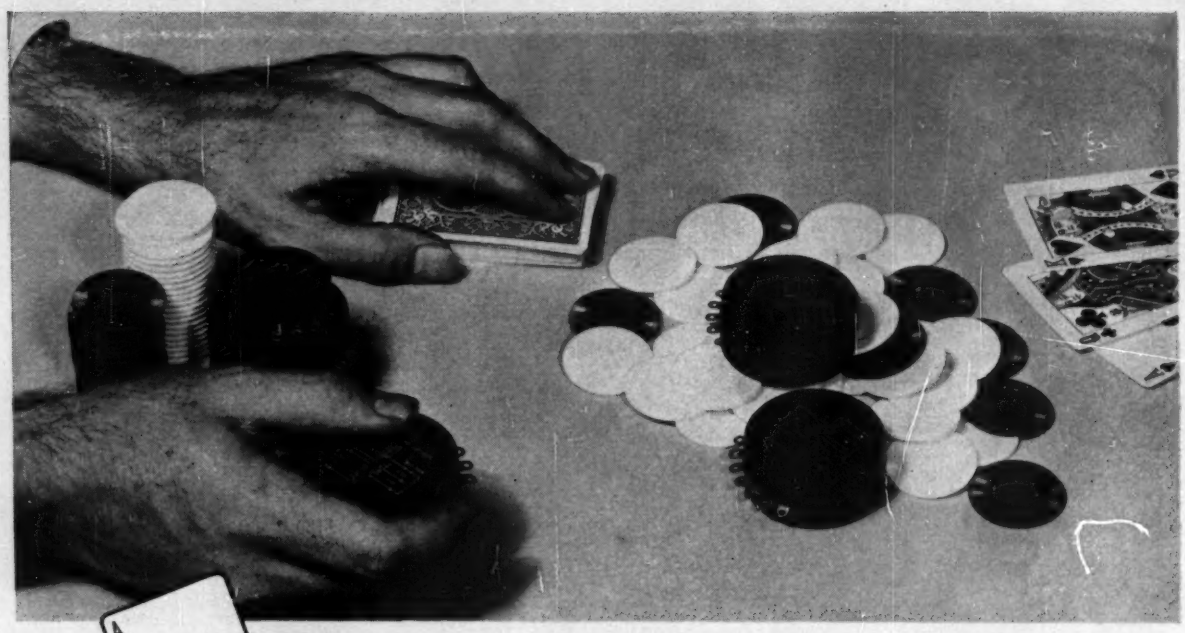
Best Wishes to ESMA 11-1
"Electronics Management's Biggest Challenge" 9-1
Electronic Military Procurement—1960 4-1
For Your Technical Reference 6-1
No Payola 3-1
Outlooks and Reviews 2-1
Proceed but with Caution 7-1
Review & Forecast for 1960 1-1
Support for Education 5-1
Surplus 10-1
1960—WESCON and Western Horizons 8-1

CONVENTIONS

IRE Show is Now "International" 3-125
Northeast Engineering Meeting (NEREM) 10-102
WESCON—Showcase of Western Electronic Industry.. 7-78

GENERAL

Analyze Control Systems with Time Lag ..... Yudell L. Luke 7-75
Applied Psychological Research .....W. D. Hitt 12-208
Assessing Maintainability..James M. McKendry, et al 10-194
Challenge of Space.....Creighton M. Marcott 4-102
The Company Library—White Elephant or Work Horse? .....Harold S. Sharp 11-256
Controlling Alternate Frequency.....Harry Etches 3-104
Conversion of Binary to Analog Codes ..... S. W. Torode & D. Disinger 9-70
1960 Directory of Microwave Manufacturers 11-150
Duplicate Technical Papers .....Francis J. Galvin 9-242
Electronics and the Future of Agriculture ..... Richard G. Stranix 8-91
Engineering for Space—Opportunity and Challenge... E. B. Gilroy 4-229



WHY GAMBLE WITH MAGNETIC COMPONENTS?

SPECIFY NEW A7 "POKER CHIP" PACKAGING FOR TOROIDS

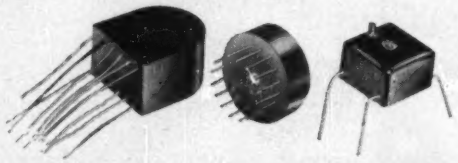
C-A-C®

APPLICATION: Power and Audio Transformers — Coils — Saturable Reactors.
CORE SIZES: Wide Selection.
MOUNTING: Stack Well, Clear Hole.
HI-POT: Good Characteristics.
MARKING: Good Contrast, White or Black.
FINISH: Semi-matte.
COST: Economical Compared to HS Cans.

TYPE NO.	MAX. DIA.	MAX. THICKNESS	MAX. NO. TERMINALS WITHIN 180°	APPROX. VA AT 400 ~	AMBIENT TEMP.	MIL-T-27 GRADE	MIL-T-27 CLASS
#137	1⅜"	11/16"	5	1 VA	85°C	5	S
#175	1¾"	11/16"	9	7 VA	85°C	5	S
#225	2¼"	15/16"	13	25 VA	85°C	5	S

SPECIAL EPOXY CAST ASSEMBLIES

C-A-C's MATERIAL AND PROCESS DEVELOPMENT DEPARTMENT can assist you in meeting unique and unusual PACKAGING REQUIREMENTS for magnetic components. EPOXY CASES with exceptionally good bonding characteristics and CAST UNITS with very tight terminal and mounting stud dimension tolerances are available.



Send us your current requirements... new design, re-design... POKER CHIP packaging may be your answer for improved component quality.

1950 Radio TV-Electronic Statistics 6-133
The R&D Personnel Administrator—What's His Role? ..... E. B. Gilroy 2-194
The Search for New Electronic Markets ..... Rollin M. Russell 8-77
Searching for New Electronic Markets ..... John E. Hickey, Jr. 7-101
1960 Survey of Guided Missiles 6-140
Selecting & Winding Magnet Wire 6-253
The 50th State—What is its Electronic Future..... Creighton M. Marcott 8-232
Today's Electronic Engineer, Part II 3-311
Ultrasonic Welder Design Considerations 5-106
Understanding Mechanical Differentials 6-275
Where are we Going with Semiconductors and Molecular Electronics ..... Harper Q. North 8-76

INSTRUMENTS, MEASUREMENTS, TEST METHODS

Analyze Control Systems with Time Lag ..... Yudell L. Luke 7-75
Applying Transistor "y" Parameters...V. G. K. Reddi 1-79
Bio-Medical Measuring in Space ..Charles T. Paludan 4-83
Build a Transistor Frequency Meter ..... Frank R. Bretemps & Sachio Saito 10-196
Calculate Impedance by Inspection...Leonard Kedson 10-93
Calculating Bandwidths for . . . Matching Networks.. H. B. Yin 7-70
Detecting Interference to Missiles.....H. Kilberg 4-170
Determining Cathode Warm-Up Time ..... James Wightman & Harry E. Wood 7-90
Determining Temperature Rise of Coaxial Lines ..... Denis J. Logan 11-78
Display Tunnel Diode Curves ..... R. C. Crutchfield, Jr. & J. E. Thompson 10-74
DOPLOC Tracking Determines Orbit.....L. G. DeBey 10-78
Mapping Small Magnetic Fields .....Gerald Solomon 9-74
Measuring Return Loss Accurately ..... Raymond E. Lafferty 10-70
New Uses for Fluxgate Principle.....George S. Kan 8-107
Selecting and Using Bonded Wire Strain Gages ..... Norman C. Parrish 4-88
Spectrum Analyzer Supplies Permanent Record ..... Richard J. Farber & A. Proudfit 1-68
Spectrum Analysis of Time Division Stereo ..... B. C. Coffman 9-228
System Analysis Using Digital Computers ..... William F. Nielsen 8-212
Testing Time Delay Relays 6-241
Using Transient-Testing Techniques...D. R. J. White 12-106
WWV Time Signal Receiver ..... S. Saito & F. R. Bretemps 8-214

MICROWAVE

Applying Microwaves to Space Problems ..... Harold M. Hart 4-78
Build Antenna Test Parabols—Fast ..... Sheldon Isaccson 11-98
Calculating Bandwidths for . . . Matching Networks... H. B. Yin 7-70
Compact Traveling Wave Tube Design ..... H. Wolkstein & C. L. Cuccia 12-74
Designing a Mechanical Modulator.....Joseph Habra 11-82
Determining Dielectric Constants....Bertram C. Gray 11-86
Determining Temperature Rise of Coaxial Lines ..... Denis J. Logan 11-78
Future Trends in Microwave Beam Tubes ..... William A. Edson 11-70
Graphs for Waveguide Calculations 6-487
Make Your Own Waveguide Bends...Harlin L. Bunn 11-241
Measuring Return Loss Accurately ..... Raymond E. Lafferty 10-70
1960 Microwave Electron Device Chart 11-135
Selecting Coaxial Cable 6-259

PRODUCTION METHODS

Electronic Hardware 6-117
Encapsulating with Alkyd ..... J. J. Maylan & J. T. Long 5-77
New & Unusual Electronic Hand Tools 6-245
Ultrasonic Welder Design Considerations ..... Dr. Walter Welkowitz 5-106

RADAR

Built Antenna Test Parabolas—Fast ..... Sheldon Isaccson 11-98
Designing a Mechanical Modulator.....Joseph Habra 11-82
Designing Rotary Waveguide Joints ..... Conway A. Bolt, Jr. 11-94
Determining Dielectric Constants....Bertram C. Gray 11-86
Finding Radar Pattern Equations with a Computer .. N. D. Diamantides 11-89
Future Trends in Microwave Beam Tubes ..... William A. Edson 11-70
Graphs for Waveguide Calculations 6-487

RADIO FREQUENCY INTERFERENCE

Consider Interference in Systems Design ..... Rocco F. Ficcki 3-142
Controlling RFI Susceptibility in Receivers ..... H. M. Sacks & J. J. Krstansky 9-92
Detecting Interference to Missiles.....H. Kilberg 4-170
The FCC Controls Man-Made RFI ..... Edward W. Allen & Herman Garlan 10-86
Guide to RFI Filters 6-124
Making Transmitters RFI-Free ..... C. E. Blakely & R. N. Bailey 3-133
New System Defeats Multipath Effect ..... George A. Scheer 5-150
Predicting the Antenna's Role in RFI ..... Ernest Jacobs 5-96
Propagation Considerations in RFI..... L. Valcik & R. B. Schulz 12-80
RFI in Satellite Communications Systems..O. M. Salati 4-92
RFI is Everybody's Business .....John E. Hickey, Jr. 3-131

RELIABILITY

Assessing Maintainability..James M. McKendry, et al 10-194
Encapsulating with Alkyd...J. J. Maylan & J. T. Long 5-77
MINUTEMAN Reliability . . . Guide for Future Component .....R. G. Stranix 13-89
Reliability . . . and Printed Circuit Connectors ..... D. R. Sheriff, Part II 10-94

SEMICONDUCTORS

Applying Transistors "y" Parameters ...V. G. K. Reddi 1-79
The Binistor—A New Semiconductor Device..... Nicholas DeWolf 8-84
Build a Transistor Frequency Meter ..... Frank R. Bretemps & Sachio Saito 10-196
Determining Transistor Power Dissipation ..... John G. Naborowski 8-110
Display Tunnel Diode Curves ..... R. C. Crutchfield, Jr., & J. E. Thompson 10-74
Graphical Semiconductor Symbols 1-109
Heat Sinks for Power Transistors....Arthur F. Lohman 5-83
A New Field-Effect Device . . The Alcatron..... Dr. A. V. J. Martin 10-98
Parametric Amplification by Junction Diodes..... 10-81
Semiconductor Symbols 1-101
1960 Summary of Transistor Specifications 6-153
Switching With Transistors.....Gerald Lueke Part I 5-114
Switching With Transistors.....Gerald Lueke Part II 7-82
Thermal Characteristics of Silicon Diodes ..... Dr. John R. Madigan, Part II 1-83
Transistor Circuits ..... E. J. Oelbermann & Herald E. Crecraft 9-78
Transistor P-A Amplifier ..... G. F. Montgomery & F. R. Bretemps 1-196
1960 Transistor Interchangeability Chart 3-181
Transistorized Closed-Circuit TV Camera ..... Richard J. Clark 7-176
Using the Tunnel Diode..... Erich Gottlieb 3-110
Where are We Going with Semiconductors and Molecular Electronics .....Harper Q. North 8-76

SYSTEMS

Accurate Tracking for Radiotheodolites....Fred Ellis 3-118
Analyze Control Systems with Time Lag Yudell L. Luke 7-75
Applying Microwaves to Space Problems..... Harold M. Hart 4-78
Consider Interference in Systems Design ..... Rocco F. Ficcki 3-142
Detecting Interference to Missiles ..... H. Kilberg 4-170
DOPLOC Tracking Determines Orbit.....L. G. DeBey 10-78
Engineering for Space—Opportunity and Challenge... E. B. Gilroy 4-229
A Filing System for Technical Articles..... Klaus H. Jaensch 5-235
General Purpose Digital Computing Systems. ..... Arthur H. Freilich 2-70
New System Defeats Multipath Effect ..... George A. Scheer 5-150
Recording from DC to 1 MC ..... Nels Johnson & Lal Mirchandani 8-112
System Analysis Using Digital Computers..... William F. Nielsen 8-212

TELEVISION

The Case for DC Restoration..... R. J. Nissen 1-186
"TPR" Recording 2-76
Transistorized Closed-Circuit TV Camera ..... Richard J. Clark 7-176

TUBES

Compact Traveling Wave Tube Design ..... H. Wolkstein & C. L. Cuccia 12-74
Current Stabilizer Has Wide Dynamic Range..... D. Allenden 5-87
Determining Cathode Warm-Up Time ..... James Wightman & Harry E. Wood 7-90
Electron Gun Finds New Role.....Richard G. Stranix 3-165
Future Trends in Microwave Beam Tubes ..... William A. Edson 11-70
New Receiving & Special Purpose Tubes 6-83
Nomographs Simplify Electron Tube Design ..... Robert D. Reichert, Part I 1-73
Nomographs Simplify Electron Tube Design ..... Robert D. Reichert, Part II 2-80
Shielding CRT's from Magnetic Fields..... Dr. Daniel Levine 12-112

PAGE FROM AN ENGINEER'S NOTEBOOK

#52 Rectification of Narrow-Band Noise..... 5-103
#53 Graphical Determination of the Reciprocal of a Complex Number 6-485
#54 Measuring Inharmonic Responses with a CI Meter 6-486
